Shared Hosting

Canadian Web Hosting offers 100% Canadian Linux and Windows Shared Hosting that gives you the flexibility in your choice of platform and the best features, reliability and pricing without the cost of owning any expensive hardware.

100% Canadian Shared Hosting

With Canadian Web Hosting's Shared Hosting plans, you get the best, fully loaded, comprehensive suite of services to support your business starting as low as $3.95 per month. You can choose from an entire suite of web applications (or web platforms) from our easy-to-use 1-Click Installation Helper. An advanced tool that not only installs your software, but also helps you install updates as they become available. Some of our most popular applications:

- Zen Cart - truly is the art of e-commerce
- Xoops - ideal tool for small or large projects
- Drupal - CMS that supports pluggable modules
- WordPress - state-of-the-art blogging software
- Joomla! - powerful open source CMS and much more!

No need to worry about updates – at Canadian Web Hosting, we provide automatic updates with the assurance that our support engineers assist you every step of the way.

Easy Upgrades

When the time comes that your website traffic and data needs exceed your current plan – we make it easy to upgrade your plan! We offer premium Canadian customer support that is 24/7 to guide you through your options, and provide recommendations on scaling up strategically and for what makes the most sense for your business. Your service upgrade features include:
- VPS or Cloud Server Options
- Business Plans with free SSL certificate
- Unlimited MySQL/MSSQL databases
- Mobile website design software package

Control Panels/Manage Your Website

Every Shared Hosting plan includes cPanel or Plesk, advanced, easy-to-use control panels that act as the primary tool to manage your web hosting account. It is easy to navigate, full of website tools and highly reliable. Once you login, you will have easy access to all the account tools you will need to configure, setup or tweak your website. In addition, with a few clicks you can access your server information, website tools, email accounts, databases, 3rd party scripts and services and so much more.

Free SiteBuilder Tools

Every Shared Hosting plan includes free and powerful Site-Builder tools giving you 1-click access to advanced website tools that are easy-to-use and allow even the most novice user to make a professional grade website in 5 minutes!

1-Click Application Installs

These always up-to-date applications provide an easy way for Canadian Web Hosting customers to add additional functionality to their website. Applications range from calendaring tools to fully functional CMS systems such as Joomla, Drupal, or WordPress. Other categories include e-commerce, shopping
